

Mr. John Vickers

Principal Technologist, Space Technology Mission
Directorate, NASA

2022 Luncheon Presentation Topic:
"Disruptions Transforming Manufacturing"

John Vickers concurrently serves as a principal technologist for the Space Technology Mission Directorate at NASA Headquarters and as the senior leader for advanced and in-space manufacturing at NASA's Marshall Space Flight Center. In addition, he serves as the associate director of the Marshall materials and processes laboratory and as the manager of NASA's National Center for Advanced Manufacturing. He also represents NASA on the National Science and Technology Council's Subcommittee on Advanced Manufacturing. He is a fellow of SME and an associate fellow of AIAA.
